EDUCATION

Malla Reddy College of Engineering & Technology – B.Tech, Computer Science & Engg

8.80 CGPA

Hyderabad, IN

WORK EXPERIENCE

BharatTech - Front-End Developer Intern

October 2023 - current

Kanpur, IN

- Collaborated with a small team to design and develop responsive web applications using React, improving user engagement.
- Integrated RESTful APIs to fetch and display dynamic data, enhancing the application's functionality and performance.
- Gained hands-on experience with version control using Git and collaborated on GitHub for project management and team communication.
- Integrated authentication systems using Firebase Authentication, enabling secure user sign-up, login, and session management, which streamlined user access and enhanced data security.
- Developed and managed user profiles and roles, ensuring a personalized experience while maintaining strict access controls.
- Conducted testing and debugging of applications to ensure cross-browser compatibility and mobile responsiveness, resulting in a smoother user experience.

PROJECTS

Daybook- SaaS for small retail business

Tech stack: ReactJS, Shadcn UI, TailwindCSS, Firebase

- Designed and developed a bookkeeping tool to record and manage daily transaction of a retail business.
- Allows businesses to manage inventory, customers, suppliers, generate invoices, sales and purchases.
- Provides subtle notifications when items need to be restocked, overdues to be cleared or overdues from customers aren't received past due dates.
- Generate clear and concise statements of customer transactions, inventory flows for given period of time.
